CHARLES C. MOORE DEAD.

Famous Infidel and Prohibitionist Editor Passes Away Suddenly.

Charles Chilton Moore, the acted "heaven editor" of the Blue Grass Blade, who has been ailing for the past few weeks, finally succumbed and died at his home at Quakeracre farm, this county, at 2 o'clock Wednesday afternoon, Feb. 7.

The deceased was 67 years of age and of remarkable physique and constitution. He was vigorous to the end. Sudden failure in heart action is given as the cause.

The funeral was at Lexington on Friday afternoon. The funeral orations were by J. B. Wilson, of Cincinnati, President of the National Liberal Party, Mrs. Josephine K. Henry, of Versailles, and Moses Kaufman, of Lexington, noted infidels.

New Congressional Timber.

William Young, of Moorehead, is the latest would-be candidate we have seen mentioned as courting the Democratic nomination for Congress from the 9th district. Kolla K. Hart, of Flemingsburg, is also said to have his eye on this place.

"Will alcohol dissolve sugar?" "It will," replied the Old Soak. "It will dissolve gold, brick houses, and horses, and happiness, and love and everything else worth living."—Exchange.

Will Move to Huntington.

Judge C. B. Hill and family will move to Huntington, W. Va., where he is interested in land deals. He will still regard Winchester as his home and will retain his citizenship here.—Democrat.

Farm Wanted.

We have a letter from a gentleman—a subscriber to our paper—in Eastern Ky., who wants to rent a farm of 125 to 150 acres. He wants a description of the land as to grass and cultivation, number and condition of residence, barns, etc. He can bring another family with him.

Persons having farms to rent or sell should advertise same in the Mt. Sterling Advocate. He saw in our paper the Fasset farm advertised and wrote concerning it. He is the third man who has wanted to know about this farm—which is already disposed of. 28-tf.

TO THE PUBLIC

We are now fixed up in our new room on the corner of Main and Bank streets, where we will be pleased to show our friends an almost entire new line of furniture. For two weeks we will sell

An All Oak Set of Furniture, Three Pieces, for \$15.00 Cash,

A nice oak rocker for \$1.00. These are bargains and you had better take advantage of them while they last. Also have in a new line of Hatracks, Sideboards, Princess-Dressers, Settees, Morris Chairs, etc., and we will make the price to suit you.

Don't forget that we have a large storage room for all kinds of household goods.

UNDERTAKING A SPECIALTY.

W. A. SUTTON & SON.

The Effects of Beer.

Dr. S. H. Burgen, a practitioner for thirty five years (twenty-eight in Toledo), says, "I think beer kills quicker than any other liquor. My attention was first called to its insidious effects when I began examining for life insurance. I passed as unusually good risk five Germans—young business men—who seemed in the best of health and to have superb constitutions."

In a few years I was amazed to see the whole five drop off, one after another, with what ought to have been mild and easily curable diseases. On comparing my experience with that of other doctors I found they were having similar luck with confirmed beer drinkers, and my practice since has heaped confirmation on confirmation. Any physician that cares to take the time will tell you that among the dreadful results of beer drinking are lockjaw and erysipelas, and that the beer drinker seems incapable of recovering from mild disorders and diseases not usually regarded of a grave character.

Big Fires At Lexington.

On Tuesday night of last week fire completely destroyed the wholesale grocery house of Curry Tunis & Norwood. It was a large modern new building occupied last year. The fire spread rapidly and could not be controlled. Their loss is said to be about \$20,000 dryette insurance.

On Wednesday night the Q & C and Southern depot was completely destroyed.

If You Wish To Stop.

Last week we received at the same time two requests to discontinue the paper. A lady had paid to a certain day Feb and her time was out. The paper was promptly discontinued. A gentleman who had not paid for over three years sent in his request. The paper will not be discontinued until past dues are paid unless we know he has moved away, or that he is a man who is not willing to pay an honest debt or keep his word, or has suffered a great financial loss and is whereby unable to pay.

HARVARD

Will Not Play Foot ball in 1906.

Announcement was made that the faculty of Harvard has expressed its opinion to the committee on the regulation of athletic sports that inter collegiate foot ball should be prohibited to Harvard students in 1906 and until a reasonable game shall have been exemplified in practice in individual colleges.

COUNTY UNIT BILL

Will Have Almost Unanimous Support of Republican Legislators.

The Republican members of both House and Senate at a caucus held Wednesday morning by almost unanimous vote declared their intention to support the "County Unit" bill, making the county the unit in all the local option elections, and to do all in their power to procure the passage of the measure.

The fight for such a statute has been on in Kentucky for ten years and has secured more advancement this time than at any other session.

GENERAL ASSEMBLY.

When the House opened Wednesday morning a substitute was offered by Representative Klair for the Young resolution to send a committee of two members of the Senate and three of the House to Breathitt county. This substitute provides that an inquiry be instituted by the joint committee to inquire into the truth of the reports regarding lawlessness in Breathitt and to attempt to make peace between the contending factions and reports to the General Assembly. The substitution was adopted.

The joint resolution to pay the expenses of the revenue and taxation commission and its secretary passed by unanimous vote.

When the Anti-Railroad Pass bill came up for passage, Representative Klair introduced a substitute which kept the House in a roar of laughter during its reading. It sought to force airship lines, railroad, steamship and hot air lines to give most everybody in the country transportation under penalty of being fined 30 cents in Mexican money and having the color of their cars changed. Any person who refused to accept transportation or who tries to use more than one kind of transportation at once, or who tries to come and go at the same time, is to be adjudged insane and sentenced to the Legislature for two years.

Mr. Klair, after the reading of the substitute, stated that he feared there was a serious constitutional question involved in his substitute, and he moved to have both the substitute and the original referred to the committee on judiciary, but his motion was beaten. Mr. Drewry then moved to lay the substitute on the table, thus taking the bill with it. This would have had the effect of killing the bill.

The motion was evidently not understood at first, and on a viva voce vote the ayes made a good showing. The scheme to kill the bill was discovered just in time, and an aye and no vote was called for, resulting in the loss of the motion by a vote of 46 to 41.

The substitute then was defeated by a viva voce vote and the original bill was put on its passage.

The roll was called and the measure carried by a vote of 59 to 32.

Two reports were submitted to the House this morning in the Daly-Drewry case, the majority favoring the setting of the contestee and the majority urging the declaration that there was no election.

SENATE PROCEEDINGS.

In the Senate today the following important new bills were introduced:

By Mr. Harbeson—An act to amend to revenue laws of second

class cities so as to carry into effect Sec. 181 of the Constitution relating to taxes based on license or franchises.

By Mr. Chinn—An act appropriating \$10,000 for statues of Clay and Goebel in statutory hall in the National Capitol.

By M. Chinn—An act authorizing the State Sinking Fund Commissioners to donate the State's interest in turnpike roads where the State owns all the stock.

BITTER FEELING OF CHINESE.

Against Americans and Things American. Boycott Held Responsible.

Reports continue to pour into the Department of State at Washington from diplomatic and consular agents in China, regarding the rapid increase of feeling against Americans and things American, as expressed in edicts issued by local authorities in various parts of the empire.

For six months the situation in China has been the subject of very genuine concern to the department and Mr. Rockhill, the American Minister at Peking is under instructions to keep Washington thoroughly and frequently informed of the situation. He is also exerting himself at the Chinese capital in an effort to check or allay the anti-American feeling that appears to be growing.

The officials here will not be at all surprised at any developments a month may bring forth.

A Fine Showing.

The Cynthia Log Cabin has the following concerning one man's experience with sheep: "Mr. Dixie McKinley, of Pointdexter, claims that he has broken the price record in sheep in this county. On Monday he sold his flock of fine sheep at \$10 per head. Besides, the lambs from these ewes averaged \$6.48 per head. The wool averaged 9 pounds to the head and he sold this wool at 26 cents per pound which yielded \$2.84 per head. The ewes averaged one and one-half lambs each, or \$9.72 per ewe. Adding the price of the lambs and the wool the result is \$12.06 produced by each ewe. Adding the selling price of the ewes, \$10 each, and the total returns from each ewe was \$22.06.

Crosses English Channel.

The balloon of the Aero Club, which left London, Eng. Saturday afternoon for France, successfully crossed the English channel and descended in safety twenty miles inland in France. The entire time consumed was four hours and ten minutes. The occupants of the balloon were Messrs. Pollock and Dale.

Once the balloon ascended to ten thousand feet where a snow storm was encountered and the entire airship was encrusted with frost.

To Cure Bone Pailon.

A Chicago doctor says for the last fifteen years he has used egg to cure felon and has yet to see a case it will not cure. The way to apply the egg is as follows: Take a fresh egg and crack the shell at the larger end; make a hole just large enough to admit the thumb or finger, which ever it may be, and force it in the egg as far as possible without rupturing the shell. Wipe off the egg that runs out and bind a handkerchief or soft cloth around the finger or thumb, leaving the egg on over night. This will generally cure in one application.

One smile for the living is worth a barrel of salt tears for the dead.

PROSPECTIVE LEGISLATION.

Old Levy of Fifty Cents Will be Allowed to Stand.

FRANKFORT, Ky., Feb. 6.—Back to the fifty-cent levy is the slogan of the House committee on Revenue and Taxation. As the bill was drawn by the commission the levy was put at forty-seven and one-half cents.

Such a fight has developed by those who are affected and so much additional antagonism threatens to develop when the bill comes out of the committee and gets before the two bodies that the House committee feared that the revenue producing features would be so affected that the State could not get along with less than the fifty-cent levy.

ACTION ON THREE BILLS.

The Judiciary Committee of the Senate took favorable action on three bills. One is the Ward bill, making it unlawful for any official of the State, county or city to accept a railroad pass. It also took favorable action on the bill appropriating \$50,000 for a tuberculosis hospital, \$20,000 annually for maintenance, and authorizing the Governor to appoint five commissioners.

The Spence bill, giving relief to the Attorney General was the third. This bill gives the Attorney General one deputy, one assistant, a law clerk and a stenographer.

FAYTHER'S DOVE BILL.

The Committee on Public Health took favorable action on Representative Paynter's bill which requires all users of morphine to take out a license and to pay a fee.

The Printing Committee took favorable action on the bill requiring sheriffs to publish notices of all rates in newspapers of general circulation, and also one requiring Councils to publish ordinances in cities of the fourth class.

WEDNESDAY.

The bill appropriating funds for building a laundry at the Eastern Insane Asylum at Lexington was re-committed to the Appropriations Committee.

The House Committee reported favorably \$4,000 for improvements at the Frankfort penitentiary; \$5,000 for a tuberculosis hospital at Eddyville.

The Committee on Public Morals reported favorably the bill to prevent the presentation in the State of plays which deal with Civil War subjects and tend to create race prejudice and the bill to prohibit base ball or foot ball on Sunday.

SENATE PROCEEDINGS.

In the Senate Wednesday the Newman bill to create a State board of agriculture forestry and immigration came up as a special order. It provides for \$20,000 a year appropriation, and provides that a farmers' institute be held in every county in the State annually.

Numerous amendments were offered with recommendation to report a bill with only \$7,000 appropriation.

Earlier in the Senate session the Charlton bill authorizing the city of Louisville to increase its police force to one for every seven hundred population, an increase of 73 policemen, was passed unanimously.

The House bill creating the thirty-second Circuit Court District, composed of Perry, Leslie, Owsley and Letcher counties, passed unanimously.

The House bill creating the thirty-third Circuit Court District, composed of Perry, Leslie, Owsley and Letcher counties, passed unanimously.

TAKE OWN LIFE.

Prominent Banker, Politician and Preacher.

Unable to withstand the disgrace that he knew was certain to follow his exposure, George H. Simmons, preacher, banker and politician, of Peoria, Ill., committed suicide. For two days he had been the object of an investigation by State's Attorney Scholes, to whom appalling stories of disgrace and debauchery had been told. Realizing what was about to happen, Mr. Simmons took cyanide of potassium after his retirement, which did the fatal work while he slept.

The People's Savings Bank, of which Mr. Simmons was president, closed its doors.

He was president also of the Interstate Savings Bank up to the day before he died, when his resignation was accepted.

J. B. CLAY DIES

During Night in His Birth on C. & O. Sleeping Car.

Captain James B. Clay, one of the most prominent Confederate veterans and thoroughbred breeders of Fayette county, was found dead in his sleeping car berth on an eastbound C. & O. train near Baltimore early Wednesday morning, en route to N. Y.

SKETCH OF CLAY.

Captain James B. Clay was born in Lexington in 1846, and was 60 years of age. He was the eldest son of the late James B. Clay, and a grandson of Henry Clay. During the Civil War he served with distinction and valor on the staff of General John C. Breckinridge and was a prominent member of the Confederate Veterans Association.

After the war Captain Clay engaged in farming in Fayette county, and became interested in the breeding of thoroughbreds.

A Kentuckian will Command United States Army

Brig. Gen. J. Franklin Bell a native of Kentucky, will succeed to the command of the United States army in April next when Gen. Bates retires. According to an announcement made at the War Department, on April 14 Gen. Bell will become a Major General and immediately thereafter Chief of Staff.

Gen. Bell was born at Shelbyville Ky., January 9, 1856.

On account of his brilliant work in the Philippines he was complimented by President Roosevelt, who said: "Bell did more than any one man to bring about peace in the islands."

An Endless Round.

No sooner does the farmer dispose of one crop of tobacco than he begins preparing for the next one. Already he is picking out a suitable place to burn a plant bed and he has figured to the last yard just how much canvas it is going to take to cover that bed. He has decided what fields the plants are to be set in and every detail connected with the growth of the crop has been worked out with exactness. Thus man moves always in a circle. From a given point in the circumference of that circle he starts on his work. When that work is finished he finds himself back again at the starting point ready to begin all over again. Is it any wonder that mankind some times groans under the monotony of its endless rounds of tasks?

Public Sale of Land.

On the 19th day of February, 1906, I will offer for sale at public auction at the court house door in Mt. Sterling, Ky., at 1:30 o'clock p.m. to the highest and best bidder my farm of 180 1/2 acres of land lying on the Mt. Sterling and Owingsville turnpike, about one mile north-east of Mt. Sterling and on the north side of the turnpike at the former toll house on said road, and bounded on the north by the Embury heirs; on the east and south by said heirs, the turnpike road and the lands of Jas. Magowan, and on the west by the heirs of A. H. Ringo.

There is a four room tenant house on said land, and on the west side a valuable rock quarry of fine gray limestone. Said land is in a high state of cultivation, and includes the old fair grounds, which is a fine residence site.

The main line of the water works runs along the turnpike and Hinkston creek runs through one side of the land. This land extends to within a few rods of the Hinkston turnpike, and the right of passway over the lands of the Ringo heirs belongs to the farm, extending to the Hinkston turnpike.

Said land will be sold for 1/4 cash, 1/4 in one year at 6 per cent.

C. R. Prewitt, at the sheriff's office, will show the farm.

Vinol THE COD LIVER PREPARATION WITHOUT OIL

Vinol is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequalled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

OUR GUARANTEE—We have such faith in VINOL that if you will take it we promise if it does not benefit or cure you we will return you your money without question. We take all the risk.

Farm For Sale.

A farm of 115 acres, 5 miles from Mt. Sterling, well improved and watered, new barn, good residence, and all in grass. Will sell cheap. 26-1f.

The automobile question is going to be a very live one in rural communities in the days to come; it is rapidly becoming so.

The farmer whose head is strong enough to hold his tongue and keep it out of his neighbor's affairs is always the most respected and most successful.

What would a farm be without a boy on it? It is what the boy does that is the life of it.

Occasionally we run into a sunny individual whose smile goes round her face like a veranda. She is the woman who has a pleasant "How do you do" for everyone. She doesn't speak today and then tomorrow when she passes you stick up her head as though a muscle had contracted in her neck. Good manners are not only pleasant, but profitable. Treat everybody with respect. It is a badge of good breeding.

Royal Baking Powder Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheaply made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adulterated powder to save a few pennies?

ROYAL BAKING POWDER CO., NEW YORK

NEW BURLEY Brought The Best Prices Of Year. The Figures In Detail.

The Louisville tobacco market was very active and values as a rule were highly satisfactory, condition and quality considered. There were very large sales of new burley. Common red and color trashes and all bright grades were in excellent request with competition lively at times, the American Tobacco Company, as well as the independent buyers, taking freely of the offerings. Old Burley tobacco sold well, though offerings were small. The quality was satisfactory and the market for all the better grades was brisk. Prices received for the burley ranged from \$17 to \$25.50.

The new dark offerings showed only fair condition, and were of poor quality. Firm prices were noted for trash and lugs, and the common and medium grades of leaf sold readily.

Auction sales of leaf tobacco for the week were 4,859 hogshead and private sales amounted to 701. The sales comprised 4,95 hogsheads of Burley, of which only 164 were old crops.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve Tonic which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

"For eighteen years Dr. Miles' Nerve Tonic and Anti-Pain Pills have been my close companions. Early in marriage life, while raising five children, my nerves became all worn-out. I could not sleep, had no appetite, and was in perfect health. Then I began using Dr. Miles' Nerve Tonic, and at once I began to improve, and soon found myself in perfect health."

Look out for a gang of men who are seeking women out of considerable money. The fellows are going about selling what purports to be liven at a ridiculously low price. The goods, however, proves to be common muslin. They will not sell less than a bolt of the stuff at the figures given, saying that they are anxious to quit the business. They usually carry samples of genuine linen. At last accounts they were in Cincinnati's suburbs and may be headed this way.

A new graft is to try to sell farmers a water tank, which among other virtues, possesses the magic power of preventing the water in it from freezing, no matter how cool the weather may become. If the agent fails to sell one he wishes to leave a sample on the farmers hands to be tried in the coldest weather, and requires a signed contract for leaving it. The contract later turns up at the bank as a note for the signers to pay.

Speculation in sheep is at a low ebb at present, says the Breeder's Gazette. A year ago the wise ones were scolding the country securing the options that proved very profitable during the summer. The speculator has no chance to make dollar under existing conditions, in the opinion of an extensive operator who cleaned up a small fortune last year.

Some folks do not like to be tickled in the ribs. Not so old Mother Earth. And she enjoys it best when it is done with a good hoe or a well made barrow.

A Woman's Martyrdom.

Is too often her own fault, simply because she won't take sufficient trouble to try a medicine that so many thousands of women enthusiastically recommend, viz: Dr. Caldwell's (laxative) Syrup Pepsin. This bland, soothing, curative medicine regulates disordered functions of stomach, liver, bowels, etc.; and soon restores sick women to perfect health. Try it. Sold by W. S. Lloyd at 50c. and \$1. Hebburn Bill Passes

Representative Hebburn, chairman of the house Interstate and foreign commerce committee, is a native of Ohio, but has been an Iowa since 1841. He was educated in the schools of Iowa, then a territory, and in a printing office, became a lawyer in 1854 and was captain, major and lieutenant colonel of the second Iowa cavalry during the civil war. He is serving his tenth term in congress.

The House passed the Hebburn railroad rate regulation bill by a vote of 347 to 7. The bill was at once sent from the House to the Senate.

The Hebburn bill gives the Interstate Commerce Commission authority when a rate has been complained of as "unreasonable" by shippers to investigate that rate, state whether or not it is unreasonable, and if found to be unreasonable name a rate which is just and reasonable and fairly remunerative which is to be the maximum rate to be charged. This rate, so fixed is to go into effect thirty days after it is announced by the commission, subject during that time to be set aside or suspended by the commission or by the courts. After it has gone into effect it is to remain a rate for three years.

Another important feature is the definition of the words "railroad" and "transportation" in a manner to include all auxiliary instrumentalities of common carriers and bring them within the control of the commission.

The Missouri Pacific Railway Co.

The great want of the world is men; men who will not sell; men who are honest, sound from center to circumference; true to the core; men who fear the lord and eschew covetousness; men who condemn the wrong in friend or foe, in themselves as well as others; men whose consciences are as steady as the needle to the pole; men who will stand for the right if the heavens totter and the earth reels; men who will tell the truth and look the world and the devil square in the eye; men who will neither brag nor run; men who have courage without shouting to bring it; men in whom the current of lasting life runs still, deep and strong; men who are careful of God's honor and careless of man's applause; men who are so large for sectarianism and too strong for political combat; men who do not shout, nor cry, nor cause their voices to be heard in the streets, but who will not fall nor be discouraged till judgment is set on earth; men who know their duty and do it; men who mind their own business; men who will not lie; men who are willing to eat what they have paid for. With enough men of this kind the world would be a far better place, and want, wretchedness and all kinds of evils would decrease.

ANNOUNCEMENTS.

FOR CONGRESS.

We are authorized to announce Judge John E. Cooper, of the county of Montgomery, a candidate for Congress subject to the action of the Democratic party.

FOR CONGRESS.

We are authorized to announce Judge H. Clay McKee as a candidate for Congress in the Tenth District, subject to the action of the Democratic party, in convention or otherwise.

COUNTY UNIT LOCAL OPTION BILL.

During the nine years of our connection with this paper we have championed the cause of temperance, the suppression of the liquor traffic. We have regarded the National, State, County and Municipal approval and encouragement of it as a humiliating confession of weakness, as a short-sighted policy from a financial standpoint, as a reproach and disgrace to our civilization. We may have been regarded by some as intemperate in our utterances. We have, however, been prompted by what we considered in keeping with an exalted citizenship.

By correspondence and personal converse, through the columns of our paper and public addresses, we have pleaded with individuals, State and County officials, Congressmen and the great populace, for higher ideals. We hoped that some political party, actuated by something higher than the spoils of office, would, in beloved Kentucky, boldly declare and wage warfare against the legalized sale of intoxicants.

We have hoped that Democrats and Republicans would urge upon their political leaders the necessity of vigorous action to stay the ravages of strong drink.

Such leaders have either failed or been afraid to adopt and contend for such a measure in their political platforms, but in legislative assemblies have, now and then, given slight recognition to the temperance advocates; in order, perhaps, to prevent an open rupture.

Thus by degrees and with discouragements, these advocates have pressed their claims, patient in their disappointments, yet grateful for what progress has been achieved in enactment and enforcement of law restricting this traffic.

In as much as the Democratic party has been and is the dominant party in Kentucky these advocates have a right to expect that the Democratic administration and legislators will heed their wishes, and see to it that their just and righteous demands are granted.

We are Democrats and much interested in the welfare of our State and we believe it is our duty to say that the Legislature, now in session, Democratic in both houses, is confronted with the opportunity to heed the wishes of the thousands and thousands of patriotic, God-fearing citizens of our State who regard the protection of their sons and daughters from the ravages of the open saloon as an attainment of transcendent worth.

We recognize the insufficiency of relief desired, and yet we know through human legislation we are to look for some relief from our woes.

There is now pending before the Legislature a bill known as the Cammack County Unit Local Option Bill which is endorsed by

thousands of intelligent, influential, cultured christian men who deem it worthy of the hearty support of Representatives and Senators. To them we look for relief. We hope we shall not look in vain.

Before the Senate committee on Religion and Morals, the writer on last Thursday, in pleading for this bill, stated that the greatest assets of our State were the boys and girls and that our Legislature would enact such laws as would make it as easy as possible for these boys and girls to be good, and as difficult as possible for them to be bad.

We know that many thousands of Kentuckians are restless, dissatisfied with present conditions, and looking for deliverance. They are law-abiding citizens; consequently expect that the "powers that be" the men who make and administer the laws shall heed the voice of the majority, and make it possible for the majority of the voters in a county or State to say what shall be law in that county or State. This is said to be Democratic in the broadest sense of that word.

It is not safe for leaders to disregard or flaunt defiance in the face of those men who, filled with a desire to protect their homes, come pleading for reforms.

We have advised, plead, entreated. We would ask our County and State officials and legislators to remember that Ohio has, when desired, rolled up a Republican majority of 250,000, and yet today Ohio has a Democratic Governor, and the Republican majority is whittled to a fine point because the entreaties of the temperance people of Ohio were disregarded.

What has happened in Republican Ohio can be repeated in Democratic Kentucky.

Personally, we are getting to that point ourselves, and have not hesitated to say so.

We have noticed that on last Wednesday the Republicans in the Kentucky Legislature in joint caucus by an almost unanimous vote endorsed the County Unit Local Option Bill. We believe that the Democratic members will do honorable service to our State, and satisfy a popular demand by rallying to the support of the bill, and thus remove the least uncertain concerning its passage.

Graded School at Sharpsburg.

Effort is being made to establish a public graded school at Sharpsburg, the expense to be raised by the citizens in town and county precinct. Some farmers object to this tax. An election has been called for Feb. 20. The town advocates proposed that if the farmers would raise \$10,000, the election would be called off.

There is talk of a boycott against the merchants. We hope the contention will be settled satisfactory to all and that the school will be established.

Judge of Police Court.

On of the first acts of Mayor Woods of Richmond Ky, was to announce that in his opinion it was illegal for the city treasurer to pay the salary of the clerk for the Judge of Police Court, and that he would not sign any voucher for that purpose. Judge J. J. Greenleaf did not agree with the Mayor and accordingly asked for a writ of mandamus compelling the Mayor to honor the vouchers for his clerk's salary. Mayor Woods filed a demurrer to this and the matter was brought before Judge Benton in Circuit Court. After arguments from the attorneys the Judge denied Mr. Greenleaf the writ of mandamus and sustained the demurrer filed by the Mayor. So in accordance with this ruling the Judge will have to pay his clerk himself.

FACTS and OBSERVATIONS

Concerning the County Unit Local Option Bill, and Committees Which Went to Frankfort.

Late on Tuesday afternoon of last week word was received in this city that some Mt. Sterling men had spent the day in Frankfort in an effort to defeat the County Unit Local Option Bill, and that they had represented that the business interests of the county and town demanded the defeat of the bill. In a few minutes a petition reading something like this was dated:

To the Senate Committee on Religion and Morals, Frankfort, Ky:

Gentlemen:—Whereas we have been informed that certain men from our city have represented to you that the business interests of our city demand that you do not report the Cammack County Unit Local Option Bill, therefore, we business men and residents of Mt. Sterling desire to refute said statement, and respectfully and earnestly request you to report said bill favorably.

On Wednesday morning more specific information was received concerning the men who went and what was said, and a request was made that some friends of the bill go to Frankfort on Thursday to meet the Senate Committee, which had set 3 o'clock as the hour to hear what the opponents and advocates of the bill had to say.

We presume the gentlemen in these delegations are not ashamed of their mission or the company they were in, so we give the names of the men we heard or knew were present.

The first delegation consisted of Judge A. A. Hazeleigh, Robt. Walsh, W. B. White, Wm. S. Lydd, Jack Graves, Robt. Barnes, John F. King, James P. King, Wm. Botte and Jesse R. Hainline. The second consisted of R. M. Trimble, Wm. A. Sutton, Rev. J. R. Hobbs, J. S. Frazier and B. W. Trimble.

On Wednesday the signatures of 55 business firms and individuals were secured to the petition prepared by the temperance advocates.

On Thursday morning at Winchester we were joined by a delegation of 15 men, representing as many different professions and kinds of business, enthusiastic in behalf of the temperance bill. Some of Winchester's saloon keepers may have been in the crowd, for they were in Frankfort. Soon after arriving at Frankfort we made an engagement to talk with Senator Ecton, to lay before him our protest petition and plea.

The conference was in the parlor of the Capital Hotel. The Winchester delegation came first, Ed Joutet beginning and others who wished took part. The saloon men who had been talking to Senator Ecton came to the door. The temperance men had no secrets and were really pleased to let them hear what we had to say. They accepted our invitation.

A representative of Paris saloon keepers, Mr. Williams, a lawyer, was present, and with a saloon keeper from Winchester, took part in the discussion. The Mt. Sterling five presented their petition, facts and arguments.

When the speakers of all the four delegations had finished, Senator Ecton stated that the committee of nine Senators had an engagement for 3 o'clock, when representatives from different parts of the State, for and against the bill would be heard. At the beginning of the morning conference, Senator Ecton assured us that "he was between two hot fires," that he had been through the Civil war and his present position was the hottest he ever encountered and was still a heating, that the responsibility was great and he wished to be relieved and that the bill would be reported to the Senate on Friday.

We wish to thank Senator Ecton for his courteous reception

and attentive hearing accorded our committee, and for his assurance that he wished to do the right thing.

The friends of the bill are confident that their plea is a righteous one, that it will prevail. Great praise and honor will be accorded to Senator Ecton as chairman of the committee when this Legislature has enacted the law. No measure before the Legislature is of such vital importance.

AFTERNOON.

The parlor at the Capital Hotel was packed with persons to hear the speeches before the Senatorial Committee. The meeting continued for about 3 hours.

The first speaker was Mr. Ed. Joutet, the talented lawyer of Winchester, who for several years has lead the temperance forces of Clark county. He was followed by eight others, representing different towns in Kentucky. Only one speech was made by each delegation. The writer was the speaker for the Mt. Sterling men.

After the 9th speech, Senator McNutt, of Louisville, who is himself a saloon keeper, and who was directing the whisky crowd, appeared to be restless, and thought his side should have a show. He was informed by the Committee that they could have all the time they wished as the afternoon was at their disposal.

The saloon men of Paris were represented by the young lawyer, Williams, who claimed that all the county officials of Bourbon except one, and the city officials of Paris were against the bill. When this was challenged, he modified his statements. We regret that said officials are so disposed toward the traffic.

A hearty applause by the temperance people greeted a remark that the advocates of the bill were a lot of preachers or men who looked like preachers. A voice was heard: "That shows the company we keep."

Barring this incident, the meeting was very orderly and respectful (there was no discourtesy in this slight interruption).

A saloon keeper from Winchester, Mr. Noonan, ably and in a gentlemanly manner, presented his side. While a dignified, courteous, gray haired lawyer, Judge Whiteaker, of Covington, was speaking for the whisky men, he chanced to remark that he did not know the provisions of the County Unit Local Option Bill, as he had not read it. When he had finished one of the Senatorial Committee suggested that they did not want to hear any more speeches from men who had not read the bill.

At the close the committee had a conference and decided to report the bill without expression.

MISCELLANEOUS.

We learned while in Frankfort that the House would favor the bill by a big majority, and that the fight would be in the Senate.

If any gentleman asks us if we were in Frankfort, and if we favored the bill, we will not accuse him "of nosing into other people's business" nor ask him "what is that to you if I was," as was said to the writer in Mt. Sterling.

We find some men who claim to be in favor of local option, but oppose the County Unit Bill; others are against the manufacture of whiskey but think that local option will be a failure, as under it men become liars, whisky smugglers and license is lost to the city.

We regret that our representative, W. J. Clay, is against the bill.

The Legislature has passed a bill to protect farmers' sheep from the ravages of dogs and that is commendable, but when a bill is reported to protect their and other people's boys and girls from drunkenness and prostitution, and murder and profligacy which are largely inspired and fostered by the saloons, that is another question.

Too many (we hope not a majority) of our law makers act as if they think: let the boys and girls go to the devil if they want to, we do not think it proper to restrict or prevent the saloon keeper from doing as he pleases, to wreck and disgrace and damn.

bon.

J. H. Hance and family or Judy
moved to J. H. Wron's property at
Mt. Sterling last week.

Meddies Hamilton and Hines
of Lexington visited their mother
Mrs. J. M. Stull last week.

A large tax was captured near
here Saturday. Foxes have been
doing mischief in this neighbor-
hood for some months.

Sam Deal has been visiting rel-
atives in Fleming.

Miss Kate Hurt was the guest of
friends Friday and Saturday.

Sherman and Miss Emma D.
Hamilton visited the family of T. J.
Carr at Mt. Sterling Saturday and
Sunday.

Mrs. A. Taul has rented near
Carlisle and will move in a few
days.

Thos B Hamilton visited rel-
atives near Owensville Sunday and
Saturday.

Our town was well represented
at Owensville court day.

Lee Taul and family of Monte
Vista, Colorado, came Sunday to
visit his mother Mrs. S. A. Taul.

NEW BURLEY Brought The Best Prices Of Year. The Figures In Detail.

The Louisville tobacco market
was very active and values as a
rule were highly satisfactory, con-
dition and quality considered.
There were very large sales of new
burley. Common red and color
trashers and all bright grades were
in excellent request with competi-
tion lively at times, the American
Tobacco Company, as well as the
independent buyers, taking freely
of the offerings. Old Burley to-

letter by saying she had gained 18
pounds and never felt better in her life.
She began the use of Dr. Gunn's Blood
and Nerve Tonic six weeks before she
wrote this letter. The tonic is in tablet
form to be taken after meals. It turns
the food into good, rich blood, feeding
the nerves and curing disease by making
healthy flesh. Sold by druggists for 75
cents per box.
